Installation

Installation Complete

Choosing a Setup Type

Please select the Setup Type that suits your use case.

- ☒ **Developer Default**
Installs all products needed for MySQL development purposes.
- ☐ **Server only**
Installs only the MySQL Server product.
- ☐ **Client only**
Installs only the MySQL Client products, without a server.
- ☐ **Full**
Installs all included MySQL products and features.
- ☐ **Custom**
Manually select the products that should be installed on the system.

Setup Type Description

Installs the MySQL Server and the tools required for MySQL application development. This is useful if you intend to develop applications for an existing server.

This Setup Type includes:

- * MySQL Server
- * MySQL Workbench
The GUI application to develop for and manage the server.
- * MySQL for Excel
Excel plug-in to easily access and manipulate MySQL data.
- * MySQL for Visual Studio
To work with the MySQL Server from VS.
- * MySQL Connectors
Connector/Net, Java, C/C++, ODBC and others.
